ABSTRACT

Five curriculum units for the second grade level focus on: (1) clothing producers and suppliers, and the clothing industry; (2) postal service workers and the postal system; (3) janitorial workers; (4) workers who build, furnish, and maintain homes and the housing industry; and (5). various community workers. Behavioral unit objectives emphasize increasing students' awareness of and appreciation for each unit's occupations and deepening students' understanding of various industries in which people work. A chart format is used to list suggested content questions; teaching techniques and learning activities; and, learning resources and materials. Culminating activities conclude each unit, followed by resource lists, for all except the unit on janitors, which include: children's books, teachers' books, encyclopedias, filmstrips, and study prints. The community workers unit includes the following occupations: police officers, fire fighters, bakers, grocers, dairy deliverers, doctors, nurses, dentists, carpenters, mail deliverers, sanitation workers, and postal workers. #### INTRODUCTION 10: Postal Services

Letter writing is included in the second grade curriculum and what better way to introduce it than through our postal services. By role playing the child can see the importance of legible handwriting and why the address must be complete. This brings the area of postal services closer to them. It is hoped that through this unit the child will become more aware of the various job opportunities found within the postal services.

#### BROAD OBJECTIVES:

1. To help children see the relationship of the postal services to their lives.
2. To help children improve letter writing skills.
3. To acquaint children with the various types of letters (example: air mail, special delivery) and the costs involved in mailing different types of letters.
4. To acquaint the children with the various personnel in the postal services and their specific tasks in mail delivery.

INTRODUCTION TO: Our Homes - Shelter  
"Where Do You Live?"

Throughout the primary grades, attention is given to self, home, community and the workers whose services contribute to them.

In the second grade, with increasing maturity of the children, interest in the home, its structure and furnishings is extended.

Since every aspect of the child's life is touched by the home, his experiences and interests will be prevalent.

It is hoped the children will gain a better understanding of and appreciation for the workers involved, from the architect's drawings of the house plans to the role of parents and children.

BROAD OBJECTIVES:

1. To help students gain an appreciation of our homes.
2. To help students develop an understanding of workers involved in building, furnishing and maintaining our homes.
3. To help students develop a realization and appreciation of the many conveniences in our homes.

INTRODUCTION TO: Clothing  
"The Shirt On Your Back"

This clothing unit will give a group of primary children a glimpse of farms, mills, factories, warehouses, stores, and their own clothes closet.

They will read with interest and purpose, and gain practical information about the clothes they wear.

Through many, varied art activities and field trips in our community, learning will be made real to them.

Through contact with workers from all walks of life, responsible for producing and supplying our clothing needs, the children will emerge with a better understanding, appreciation and interest in the world around them.

BROAD OBJECTIVES:

1. To help students develop an interest in clothing.
2. To help students develop an appreciation of the cooperation of the many workers, in making, supplying and caring for our clothing.
3. To help students gain an understanding of the different products used in making our clothing.
4. To help students gain an understanding of the importance of wise and careful selection of our clothing.

INTRODUCTION TO: Community Helpers  
"The Hat Tree"

This unit seeks to introduce the second grade child to his community and to acquaint him with the world of work.

The child will be given information concerning various occupations and will be involved in role playing situations that hopefully will start developing individual interests and abilities.

This unit will be geared to what interests the children most like. Occupations not mentioned might be included if children express a desire and show an interest in them.

BROAD OBJECTIVES:

1. To help the second grade child learn to work and play cooperatively with others.
2. To develop an awareness and appreciation for the various occupations in his community.
3. To broaden his interests and introduce new experiences that will increase his knowledge of community helpers.
4. To help him develop interests and abilities that will enable him to become a responsible and effective member of the community.
5. To develop a safety conscious child.
6. To increase his knowledge of appropriate behavior in an emergency.
7. To be able to recognize the many community helpers and their duties.
8. To develop an awareness of how the child can become a helper in his own home, school, and community.

INTRODUCTION TO: Custodians (Janitors) In Our Lives

All too often we take for granted the important work performed for us by the custodians or janitors. These people include our mothers and fathers, as well as those persons who are responsible for the maintenance of private and public buildings.

It is hoped, through actual association with the school custodians and observation and class discussion, the children will begin to realize and appreciate those who care for the buildings used by us all.

This unit is designed for a second grade class; for two to three weeks.

BROAD OBJECTIVES:

1. To help children learn about the importance of a custodian or janitor in all phases of their lives.
2. To help children develop an appreciation of custodians or janitors in their lives; through a workable knowledge of their duties and responsibilities.
3. To help children realize that everyone, to an extent, acts as a custodian or janitor sometimes.
